Academic Profile

BS (CS) Graduate (CGPA: 3.43/4.0, Bronze Medalist, 3rd Position in Batch) with 3.5+ years industry experience in full-stack software development. Recipient of Ahsaas Merit-Based Scholarship and PMYP Laptop Scheme. Now transitioning to research in Artificial Intelligence and Blockchain Technology. Coursework and projects include AI, machine learning, data structures, and database systems.

Research Focus:

- **Artificial Intelligence:** Exploring ML, NLP, and AI automation using Python for healthcare, finance, and security applications.
- **Blockchain Technology:** Investigating smart contracts, dApps, and cryptographic protocols (Rust) for secure decentralized systems.
- **AI-Blockchain Integration:** Researching how both domains can combine for privacy-preserving, transparent, and autonomous intelligent systems.

Education

BS in Computer Science

University of Okara, Okara, Pakistan
March 2020 – July 2024

Relevant Coursework: Artificial Intelligence, Data Structures and Algorithms, Database Management Systems, Software Engineering, Operating Systems, Computer Networks

Honors & Achievements:

- **CGPA: 3.43/4.0** 3rd Position in Batch
- **Bronze Medal** Academic Excellence
- **PMYP Laptop Scheme** Merit-Based Selection
- **Ahsaas Scholarship** Merit-Based (Awarded Twice)

Experience

Associate Team Lead

[Codebotx](#) 🔗

D.G.Khan, PK

Nov 2025 – Present

- Led zero-downtime deployments for large-scale TypeScript platform.
- Refactored core services enforcing clean architecture, reducing technical debt.

Associate Team Lead

[Tech Solutions Pro](#) 🔗

Islamabad, PK

Apr 2025 – Nov 2025

- Architected microservices Amazon-style platform; accelerated onboarding 35%, reduced deployment 40%.
- Optimized subscription workflows using async orchestration; cut manual overhead 60%.

Associate Software Engineer

[BloomRix](#) 🔗

Lahore, PK

Aug 2024 – Feb 2025

- Built scalable multi-tenancy framework (CRM, HRM, ERP); improved onboarding 35%, deployment 40%.
- Delivered SSO authentication; reduced redundancies, increased efficiency 80%.

Associate Software Engineer

[SA Communications](#) 🔗

Okara, PK

Jan 2023 – Jul 2024

- Developed escrow payment system with BTCPay Server; improved transaction speed 15%.
- Implemented BIP39 wallet recovery; increased success rates 30%.

Associate Software Engineer

[eFAIDA Technologies](#) 🔗

Okara, PK

Apr 2023 – Dec 2023

- Delivered 10+ WordPress plugins; improved performance 25%, 95% client satisfaction.
- Architected headless CMS with Strapi.js; reduced dev time 30%, latency 20%.

Technologies

Languages:	TypeScript, JavaScript, PHP
Databases:	MongoDB, MySQL, PostgreSQL
Cloud & DevOps:	AWS (EC2, S3, Route 53), Docker, Digital Ocean
AI & LLMs:	OpenAI, DeepSeek, Gemini Pro
Payment APIs:	Stripe, PayPal, Google Pay

Projects

Samplethis (Next.js – Listing & Subscription)

[kamrankhoxa/samplethis](#)

- Digital music platform with premium sample packs via subscription and one-time purchase.
- VST3 plugin marketplace with licensing, downloads, and user dashboards.

Montamo Project Portal (Next.js – Customer Dashboard & VOC)

[montamo/project-portal](#)

- Customer-facing construction portal with OTP and Zitadel OIDC auth, multi-project selection, calendar, documents, and funding dashboard.
- Django BFF proxy, Elfsquad CPQ VOC integration, Notion CMS, deployed on Google Cloud Run.

WayveUK (Next.js – Listing & Rental Services)

[kamrankhoxa/wayveuk](#)

- Student marketplace for renting, buying, and selling products with payment processing.
- Integrated delivery services and student-exclusive offers for enhanced user experience.

Maelano Phase-01 (MERN – Microservices Architecture)

[kamrankhoxa/maelano](#)

- Dockerized microservices e-commerce platform with AWS ALB deployment.
- Reduced manual workload by 60% using asynchronous messaging for order, subscription, and inventory services.

Laboratory AI-Driven (Laravel – Listing & AI Report)

[kamrankhoxa/labioneer](#)

- Multi-tenant lab management platform with SSO for patient onboarding and reporting.
- AI-based diagnostics with automated report generation and treatment suggestions.

WorkzenPro (Next.js & Laravel – HRM & Org Management)

[kamrankhoxa/workzen](#)

- SaaS HRM suite with organization creation, domain setup, and super admin allocation.
- Domain-based tenant routing and unified login systems for onboarding efficiency.

Vehicle Marketplace (Node.js – Listing & Features)

[kamrankhoxa/m-motors](#)

- Node.js backend for vehicle listings, dealer profiles, messaging, and filters.
- Laravel frontend with role-specific access and seamless booking workflows.

DeFi LaunchPad (T3 – NextUI & ShyftRPC)

[kamrankhoxa/dex-app](#)

- Token launch platform with presale logic, tax mechanisms, and dual token types.
- Post-sale claiming and escrow-like safeguards for token and fund security.

Escrow Commerce (Laravel – Escrow & Crypto Pay)

[kamrankhoxa/conceptbig](#)

- Crypto e-commerce with escrow payments and multi-currency support via Coinbase/BitPay.
- Encrypted wallets, admin dashboards, and user alerts for transaction security.

Quran Search Application (Django – Voice Recognition)

[kamrankhoxa/quranvers](#)

- Voice recognition for searching Quranic verses via speech, audio upload, or Arabic text.
- Improved search efficiency over traditional methods for verse discovery.

Skills

Hard Skills:	TypeScript (Advanced), JavaScript (Advanced), PHP (Advanced), Node.js (Advanced) SQL (Advanced), MongoDB (Intermediate)
Soft Skills:	Teamwork, Time Management, Adaptability, Critical Thinking
Additional Skills:	Technical Writing, Communication, Lifelong Learning, Community Involvement

Certifications - Technical Programming
